

QUALITY TEACHING FOR ENGLISH LEARNERS

MATERIALS DEVELOPMENT

QTEL provides schools and districts with customized curricular materials to meet the needs of English Learner students in specific educational contexts that offer them high challenge coupled with high support.

OUR PRODUCTS

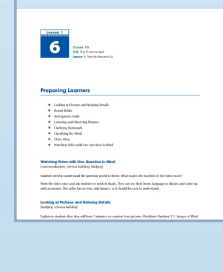

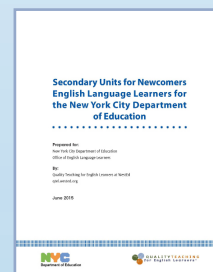

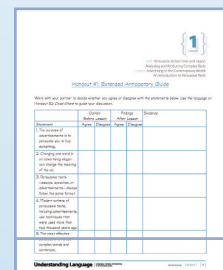

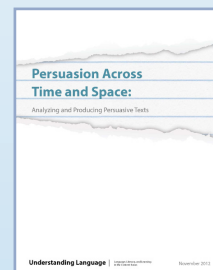

Curricular Units and Lessons

Designed:

- * With a focus on conceptual, analytical, and language practices central to core disciplines that develop students' accelerated growth
- * Using a spiraling architecture that increases in complexity as the unit progresses
- * To meet the needs of individual schools and districts based on student demographics and educational data

Include:

- * Comprehensive Unit Overviews that explain how the lessons in a unit work together to meet an overarching purpose along with detailed instructions for implementation
- * Annotations on individual lessons that explain the purpose of tasks and how they are ordered and connected in the unit.
- * Notes on how teachers and students can use formative assessment as the unit progresses

QTEL Instructional Videos

Designed:

- * To showcase specific principles of quality teaching and how they can be incorporated into instruction
- * To serve as a tool to develop teacher capacity that can be used in professional development sessions, coaching sessions, and professional learning communities
- * To meet the needs of specific schools and districts

Include:

- * Examples of QTEL processes and tasks in action in real classrooms with English Learners at different levels of language proficiency
- * Detailed instructions of tasks and the support necessary for implementation
- * Models of expected student discourse and interactions
